

Session 6: Key Marketing Elements To Include In Any Marketing Piece

In Session 6, you're going to learn what key ingredients you should include in your marketing to make sure that your customer buys from you. You'll also be doing an exercise that walks you through the creation of your marketing piece.

- Elements of any good marketing piece:
 - ▶ A powerful headline - Communicate a powerful benefit right away.
 - ▶ Your conversion story - Tell the whole story of how you discovered & created this information or product.
 - ▶ The product or service - Introduce your product as the result you customers want, the solution to their problems.
 - ▶ Summarize all of the benefits of your product into marketing bullets.
 - ▶ Introduce the price - Take every opportunity to frame the price into terms your prospect can understand.
 - ▶ Take away the risk - Offer a money back guarantee or better than money back if possible.
 - ▶ Call them to action - Most prospects have never been through your buying process so they need to be told exactly what to do, step-by-step.

EXERCISE:

- ▶ "Use This Marketing Conversion Formula To Create Your Marketing Pieces" worksheet
