

The background features a dark blue gradient with intricate, flowing, wavy lines in a lighter blue shade. In the center, there is a cluster of approximately 15-20 glowing, translucent spheres in shades of purple and blue. Some of these spheres have a textured, dotted surface. The word "NEXUS" is faintly visible in a light blue, sans-serif font, positioned behind the central cluster of spheres.

# Welcome to Second Brain Enterprise

Get ready to transform how you work with AI

# Meet Your Facilitators

**Midori Miyamoto**

Impact Communications &  
Program Design Expert

**Hayden Miyamoto**

Serial Entrepreneur & Business  
Systems Architect

**Josh Cordes**

Growth Consultant & Customer  
Acquisition Architect

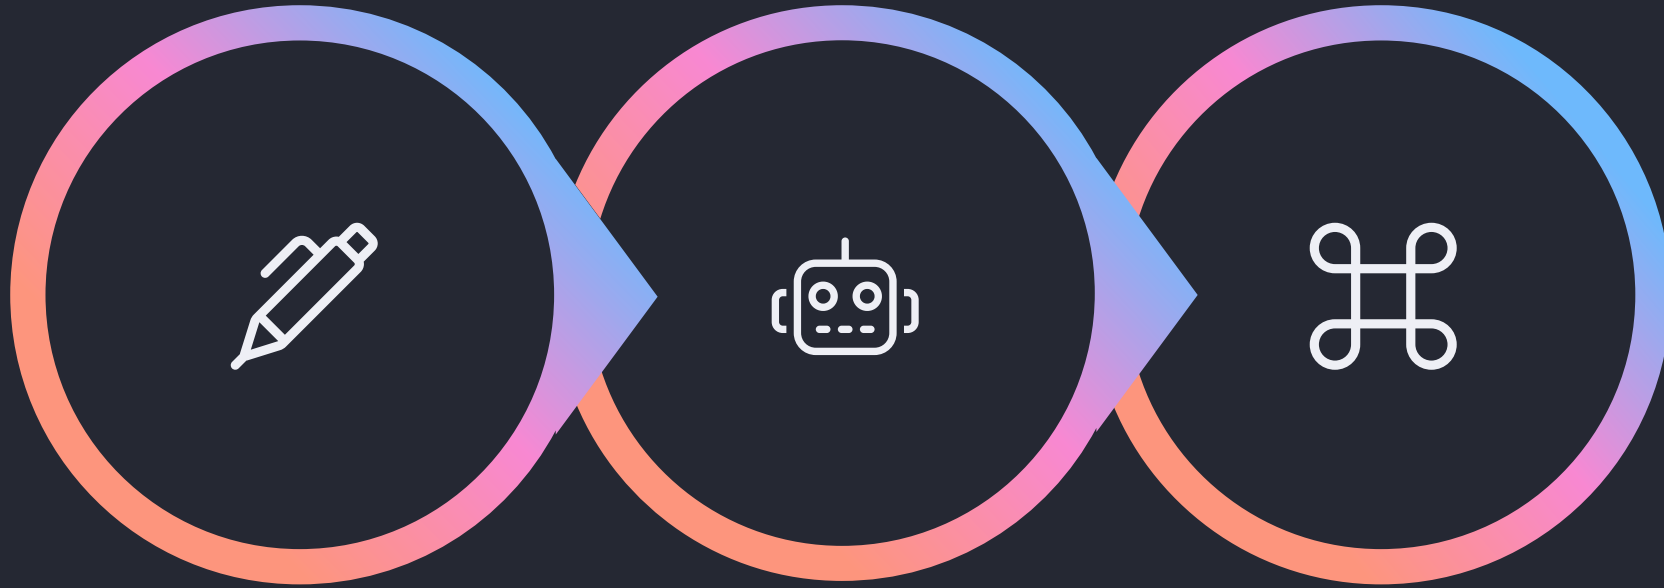

# Second Brain Enterprise

## Session 1: Tech Setup & Program Overview

Today, we'll focus on getting you set up and ready for the rest of the program.

# What You'll Get Out of This Session

**1. How the  
program works**

**2. Your LLM  
Companion**

**3. Intro to Your  
Master Prompt**

The background features a large, central gear with a smaller gear inside it, both rendered in a dark, metallic style. Several other smaller gears are positioned around the main gear, some appearing to be in motion as indicated by motion lines trailing behind them. The overall color palette is dark, with shades of blue and purple, creating a sense of depth and complexity.

# Part 1: How the Program Works

Here's an overview of what you can expect

# Program Timeline

# A Week in Empower Labs Live Cohort Program

| Monday                    | Tuesday                    | Wednesday    | Thursday | Friday                     | Saturday | Sunday |
|---------------------------|----------------------------|--------------|----------|----------------------------|----------|--------|
| Live Session              |                            | Office Hours |          | Live Session               |          |        |
|                           | Exercises & Implementation |              |          | Exercises & Implementation |          |        |
| Interact on Circle (24/7) |                            |              |          |                            |          |        |
|                           |                            |              |          |                            |          |        |

# How will we interact?

## **Zoom live sessions (2x per week)\***

The core curriculum delivered via 11x 90-minute Zoom sessions on Mondays and Thursdays over 5 weeks

## **Circle community platform (24/7)**

Ask your questions, share wins, and compare notes with apps for iOS, Android, and desktop

## **Breakout groups**

Connect with your fellow participants and get feedback on your challenges

## **Office Hours (1x per week)\***

A 60-minute open forum on Wednesdays to ask your questions and get support

*\* No external AI meeting agents, transcription tools, or note takers. We're recording every session and will share notes afterward.*

# Exercises & Implementation

After each session, we'll unlock new lessons in the curriculum in Circle with...

## Reading

Learn fundamental business concepts and terms that we'll work with throughout this cohort.

## Quizzes

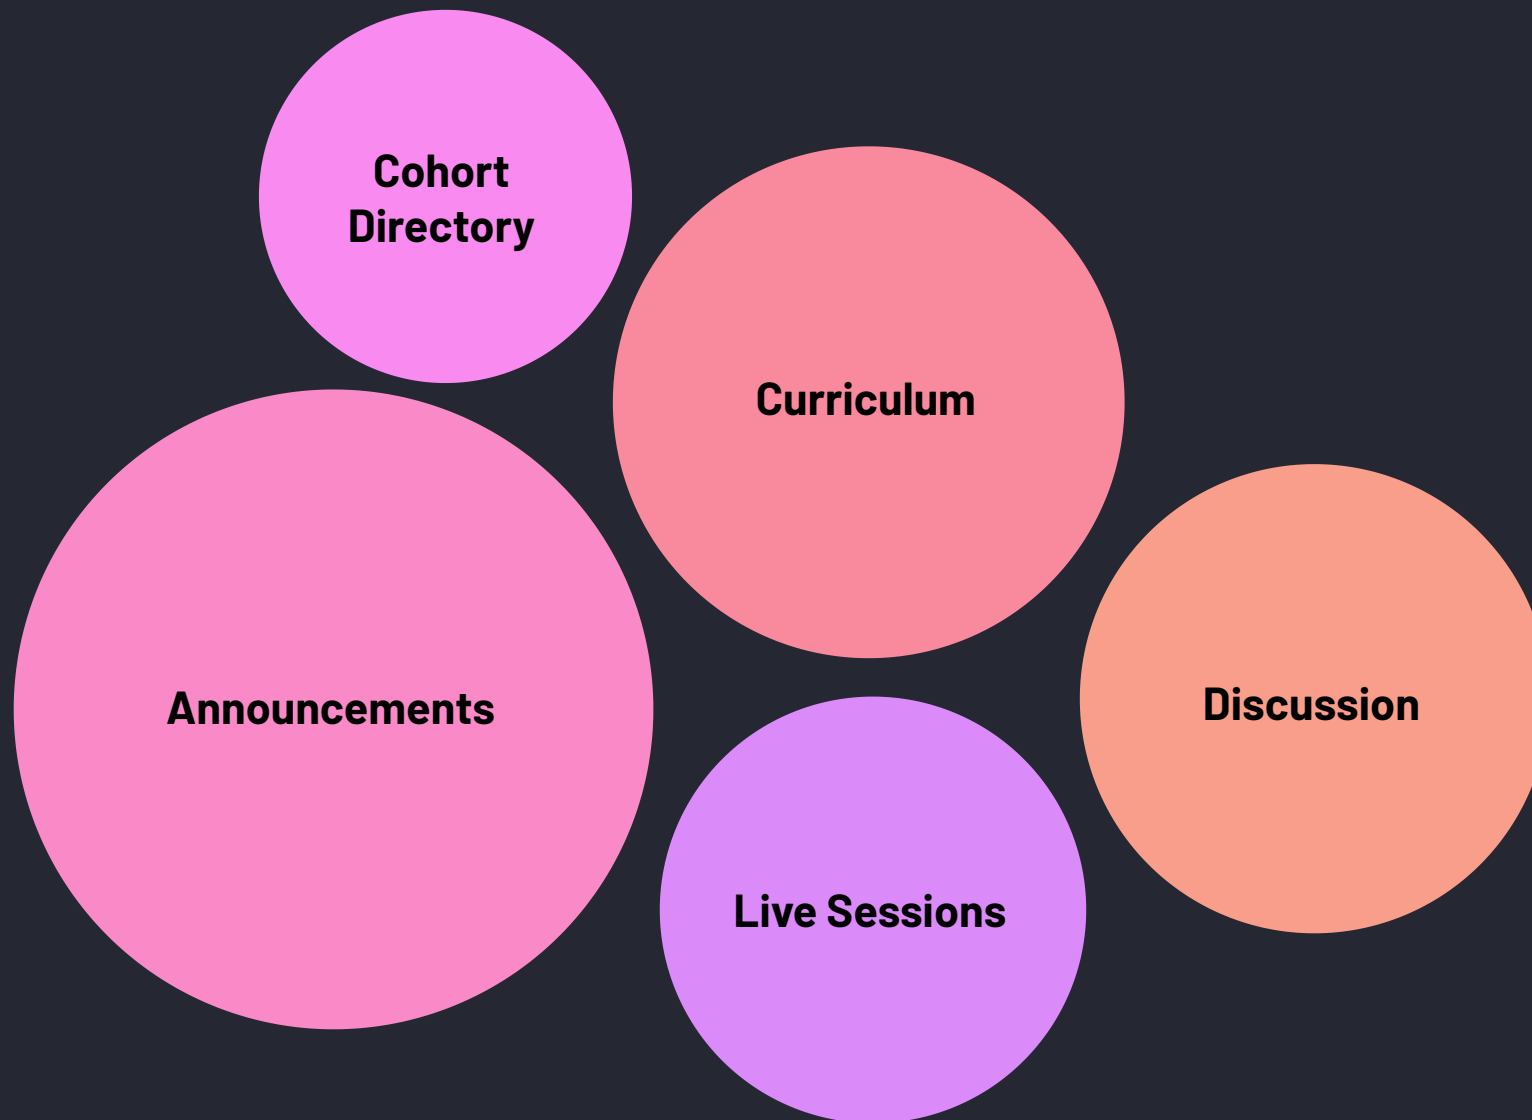

Test your understanding and reinforcing the key concepts.

## Prompts

Run prompts we've prepared for you to assess your core business processes, create artifacts, and refine your Master Prompt.

# Circle: Get to Know Our Community Hub

 Download the app for iOS/Android/Desktop

# Breakout Discussion

Take 10 minutes in groups of 3-5 to introduce yourselves and answer:

**What's your biggest hope and/or goal you're wanting to achieve from this cohort?**

The background is a dark, deep blue with intricate, flowing, wavy lines in a lighter blue shade that create a sense of movement and depth. In the center of the image, there is a cluster of approximately 15-20 small, glowing spheres. These spheres have a textured, almost crystalline appearance with internal patterns of light and dark spots. The word "NEXUS" is faintly visible in a light blue, sans-serif font, positioned directly behind the central cluster of spheres.

## Part 2: Your LLM Companion

Which LLM will you be using throughout this cohort?

# Which LLM should I use?

## Claude

**All demos will be in Claude**

**Gives us a shared language**

**Has exactly the functionality we need**

**Provides a testing sandbox for experiments**

# Your Self-Paced Guide to Mastering Claude

Available in the welcome space in Circle

1

## Understanding the Interface

Familiarize yourself with Claude's layout and key features.

2

## Choosing Your Plan

Select the optimal plan (Pro, Max, or Team) to suit your individual or organizational needs.

3

## Mastering Chats

Learn to initiate and manage chats effectively with Claude.

4

## Working with Artifacts

Understand how to create, edit, and utilize artifacts.

5

## Organizing Your Work in Projects

Implement best practices for project organization, ensuring easy access and collaboration.

6

## Effective Prompting

Develop basic and advanced prompting techniques to get the best responses from Claude.

7

## Understanding Privacy in Claude

Get clear on what you shouldn't share with Claude and how it's using your inputs.

# Quick Decision Guide: Choosing Your Claude Plan

You'll need a paid Claude account. Use this guide to determine the best plan for you:

## Claude Pro (\$20/month)

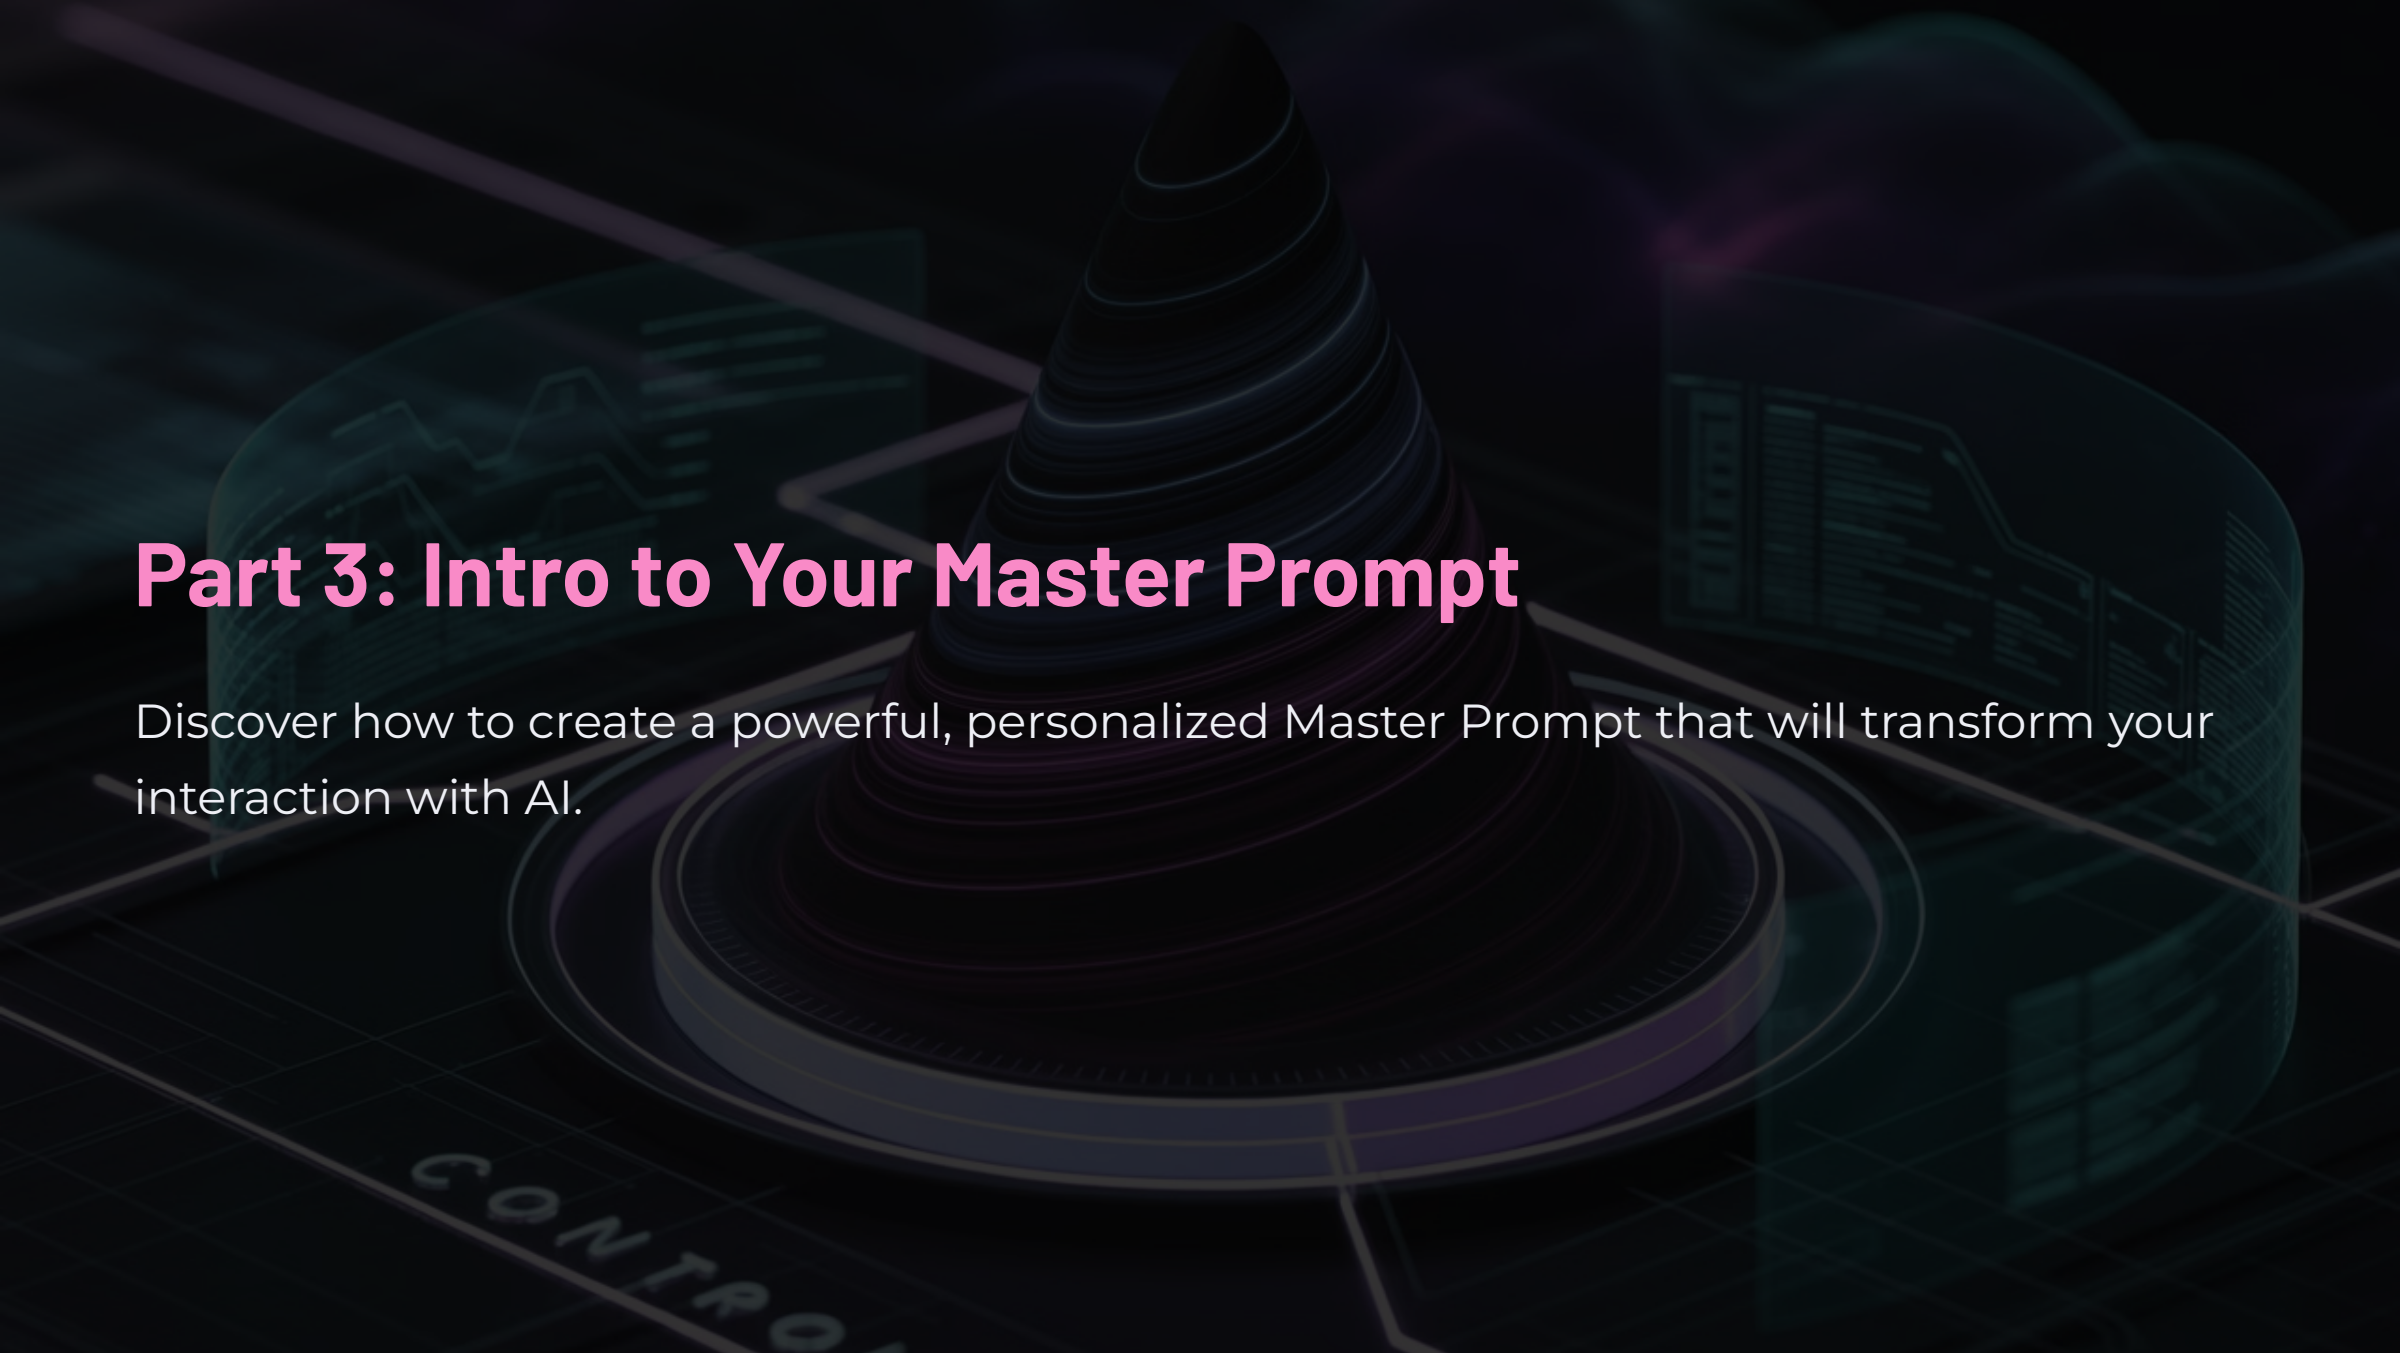

- Work independently with moderate AI usage needs
- Need Claude Code for development work

## Claude Max (\$100/month)

- Are a power user needing 5x-20x more usage than Pro
- Want priority access during high traffic times
- Use Advanced Research mode
- Want Claude Code access with higher usage limits

## Claude Team (\$30/month)

- Have 5+ people who need access (min. commitment)
- Want to share projects and chats
- Need admin oversight and user management
- Collaborate frequently and benefit from shared context
- Plan to scale AI usage across your organization

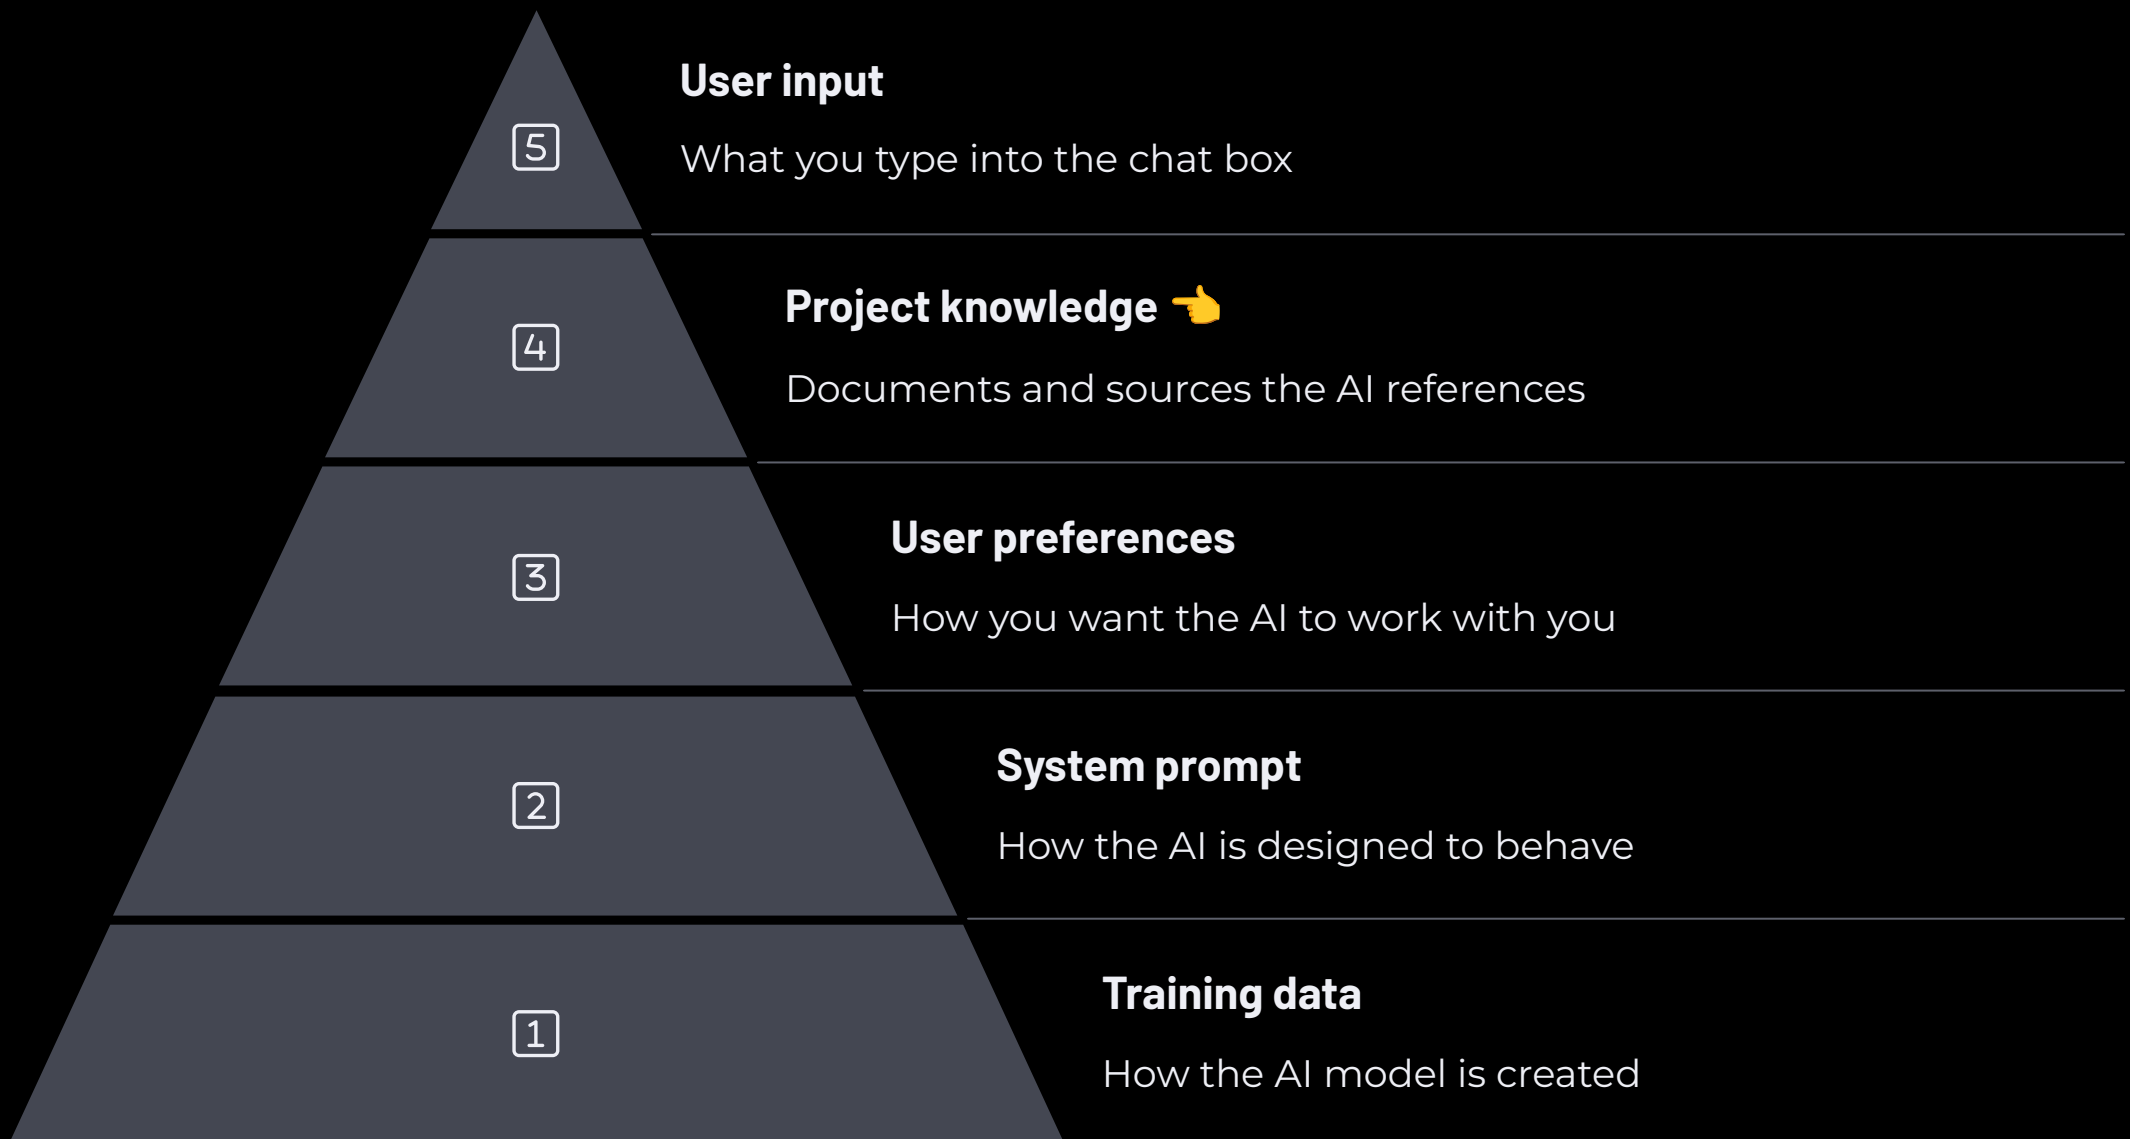

## Part 3: Intro to Your Master Prompt

Discover how to create a powerful, personalized Master Prompt that will transform your interaction with AI.

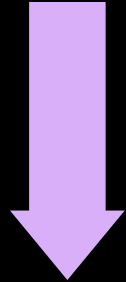

# What is a Master Prompt?

Every interaction with an LLM is filtered through at least 5 layers of context:

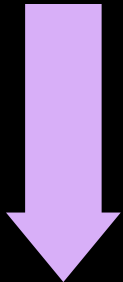

# Exercise: Create Your Master Prompt v.1

Follow these steps to build the first iteration of your powerful Master Prompt:

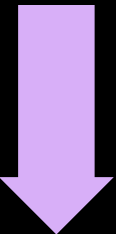

## 1. Set Up Your Project

Create a new project in Claude titled "Master Prompt." This will be your dedicated workspace for running prompts and evolving your Master Prompt throughout this cohort.

## 2. Run the Prompt in a New Chat in the Project

Claude will guide you through each step, helping you construct the foundational elements of your Master Prompt.

## 3. Copy the Artifact to your Project Knowledge

This ensures Claude can reference your Master Prompt in every chat within this Project.

**Our Recommendation:** Leave your Personal Preferences blank!

# Your Next Steps

01

## Create Your Master Prompt v.1

Complete the exercise to build the initial version of your personalized Master Prompt.

02

## Live Session 2 (Wednesday 1 PM ET)

Join our next live session to learn about the invisible structure of business.

03

## Live Session 3 (Friday 1 PM ET)

During this live session we will be going over the EMPOWER Operating System.

# Q&A

Your turn to ask your questions about any aspect of the program
